

Greetings to all my students in Venezuela,

I address to you this letter, to let you know how happy I've been because of your presence in our First Daoist Tai Yi Acupuncture Specialization Seminar, where I was able to witness your interest, commitment level and even more, the satisfaction that you expressed receiving my teachings.

I greatly appreciate the hard work the organizers put into this event to bring you this seminar, and above all, made me feel more than welcome as if I was home. Thank you to Dr. N. Gabriela Arcano, Dr. Johann Montecinos and Dr. Mario Montecinos.

My choice to begin a Traditional Daoist Tai Yi Acupuncture Training Seminar in Venezuela was due to the human quality and the deep desire to be better professional practitioners exhibited by all those in attendance of past seminars. It is you that I have chosen to pass on the knowledge of my ancestors; a practice that has been kept for many generations.

As many of you who attended can testify, the material is quite deep and extraordinary. Due to an overwhelming response by all those in attendance and many others who were unable to attend the first seminar, I have decided to repeat the seminar one more time. Anybody who missed the seminar the first time will now have the opportunity learn about this practice that has been passed down for thousands of years. Those who are looking to further develop a deeper understanding of the material taught the first time, will now have the opportunity to do so.

Based on my previous experience, there will be some changes made to the material. For this next seminar, some time will be allocated to the practice of the techniques.

Currently, efforts are underway in building a website dedicated to Tai Yi martial wellness. Once all the seminar videos have been compiled and edited to my satisfaction, they will be released through the website to all members. I understand that many people have requested for copies of the videos. Please be patient as I would also like to see the many students have a deeper comprehension of the material to safeguard the integrity of this ancient knowledge and to prevent inaccurate transmission or unauthorized practice.

Those who may have doubts about technicalities or movements regarding the Qigong exercises, I have trained and accredited Dr. Mario Montecinos to assist with any questions until I return to further clarify the material.

Please remember that there is great purpose in preserving this knowledge and I would like to remind all of you to be united in your common pursuit. There are already enough distractions with detractors of traditional Chinese medicine and people who are unfamiliar with the practice. Do not be responsible for the disunity or vanishing inheritance that I am leaving in your hands. **Take this knowledge, apply it, achieve higher healing levels,**

**and preserve your Ancestral Energy.** In the upcoming levels, you will see further developments, theory and practice.

I would like to remind everyone that the certification everyone will achieve at the end of the full program will be **Official Practitioner**. Those who are interested and reach a certain level, will have the opportunity to pursue the certification of **Chinese Daoist Tai Yi Acupuncture Licensed Instructor**.

I am touched and appreciate that all of you are seeking to return to traditional ways and will cherish these memories that I have shared with all of you in Venezuela.

See you in June!

**Master Lee Chi Wai**
